Subject Re: [PATCH 0/29v2] InfiniBand core update
From "David S. Miller" <>

NO!!!! No more huge patch bombs to linux-kernel@vger.kernel.org people! Condense your changes into more manageable pieces or only submit smaller groups of changes at a time.

You people doing this are absolutely killing vger.kernel.org.

Every patch you post has to go to 5000+ subscribers, so please keep this in mind when posting multiple patches. If you feel the need to send, say, more than 15 patches at once, reconsider.
